Our Story

Last Night A DJ Saved My Life is a UK registered charitable foundation creating opportunities & fundraising initiatives enabling the dance music industry to make a positive impact in support of children in crisis.

Founded in January 2010, LNADJ strives to change the way people view charitable work through innovative campaigns & initiatives which connect the global dance music community with charitable action in support of children in crisis. Our aim is to inspire people to be the agent for positive changes in their communities, becoming part of a greater movement in the world. Since its humble beginnings, the foundation has developed through the commitment and passion of generous volunteers along with the support of some key companies & individuals both inside & outside of the dance music industry.

Who and What we are fundraising for in Tanzania?

With the funds you are raising for this challenge we have chosen to continue to support **Featherstale Special needs children's' home** based in Tanzania. Monies raised will primarily go towards the building of a new purpose built 20 bedroom accommodation facility which will house over 25 Special needs children and their single parent mothers. A truly remarkable and worthy cause managed by an amazing team which we will visit before our ascent. We will be providing you with constant project updates along the way and the sooner we can raise the funds needed the sooner we can complete the project!

Essential Info

What are the highlights?

Trekking on the world's highest freestanding mountain. Experiencing weather ranging from equatorial to arctic conditions on the summit. It's a unique way to experience Africa as you bond with the local guides and porters who make this trip so special.

Who can take part?

You must be 18 or over to take part. The group will be around 25-30 people of all ages and from all backgrounds. Some will come on their own, but others will come with friends or family.

How fit do I have to be?

This trek is an extreme challenge. It is designed to suit people who are fit and have trained to take part – the fitter you are, the more you will enjoy the adventure. The challenge has some steep sections, with altitudes up to 5,895 metres above sea level.

Will I need specialist kit?

We will send you a recommended packing list in your welcome pack.

What food and drink will be available?

All the water on the trek will be boiled and safe to drink. All meals are provided and will include lots of carbohydrates. Please let us know in advance of any special dietary requirements.

Do I need a visa?

Yes – all UK Nationals require a Tanzanian visa to enter the country.

Will the altitude affect me?

Our bodies are required to adapt to the decreasing levels of oxygen through a process called acclimatisation. Therefore, altitude is likely to affect everyone in different ways but our leader will ensure we pace ourselves to help our bodies adjust.

Can I extend my stay or upgrade my flight?

Yes - absolutely. Please get in touch with us as early as possible if you wish to extend your stay in Africa and amend the date of your return flight. Please note, there may be a cost involved in order to do this, depending on the availability of flights. Email info@largeminority.com to discuss your options.
